COMPLE 2S

PELLET BOILER • HEATING ONLY
DHW PRODUCTION (OPTIONAL)

Pellet fired boiler, with a high content of technical water, with a revolutionary two-stage pellet feeding system, to guarantee absolute safety. Minimum maintenance, thanks to the presence of an automatic integral cleaning system, which remains active even when the boiler is in operation.

COMPLE 2S is synonymous with high and constant performance, widely measurable with significant savings compared to boilers powered by fossil fuels.
Total control of the boiler is possible, in a few simple gestures, by acting on the new on-board “Touch Screen” display, or even remotely via WiFi (optional).

Hot water production with integrated or remote system (optional).
